This notice must, "Notify the applicant that he/she must respond within 45 days or the voter will not be registered"
— Elections 101 Manual, ch 2, sec 1, pg 8

Write the date 45 days out from the day it's sent day on the line provided.

Why is this upside you ask? Because the USPS does not allow for open bottom edges.

It's possible you won't be able to read the voters hand writing upon the cards return. As a means to identify the voter pre-print their name, mailing address and voter ID than barcode (if used).

! It's important to print the ID number before the barcode for USPS processing.
